P trains are the numerous commuter-oriented train services that run in addition to the regular InterCity and local train services (S and T trains) in Belgium. Their routing and stopping pattern are often different from the normal train services, and they run primarily during peak hours. P trains that run before the afternoon peak have train numbers 7xxx, and P trains that run during/after the afternoon peak have 8xxx. Also included in this map are S trains that have 7xxx or 8xxx train numbers.

International trains that run between Belgium and Luxembourg have the same train numbers in both countries. Amongst these international trains, trains that are classified as P in Belgium are classified in Luxembourg as:

- IC (InterCity) for line B15
- RE (Regional Express) for lines LX1c, LX3a, and LX3b
- RB (Regional Bunn) for lines LX2b and LX1d

Airport / North Sea ferry port with regular passenger services  
Only selected land-connections run by regular public transport operators are shown  
When more than one option is shown, the better option(s) is/are underlined  
See port and flight / ferry operator websites for more access options
