- Single tariff point
 - 2 train services per hour per direction
 - 1 train service per hour per direction
 - less than 1 train service per hour per direction
 - operates only during peak hours
 - (peak services within BE/DE not shown)
 - different thickness: two separate services

Due to the COVID-19 pandemic, train services have been gradually reduced since around Monday 16 March 2020. **DO NOT TRAVEL UNLESS ABSOLUTELY NECESSARY, e.g. travelling to save lives. PRACTISE SOCIAL DISTANCING.** All stations with local train services in/to/from the Netherlands are shown. See also the maps for other train services in Belgium at hilario.bambooradical.com/belux/COVID-19.html. Domestic travel on local trains has the same pricing as domestic InterCity trains in Belgium. This map does not capture the many irregularities in the train schedules, and schedules are prone to rapid changes during this crisis. After many changes in the preceding week, the schedules for the following four weekdays are probably going to be similar to this minimalistic schedule for Monday 23 March 2020. However, check with public transport operators repeatedly for the latest information. Accuracy is not guaranteed. This map is not to scale. No reproduction without written permission from the author of this map. © Hilarío de Sousa 30-03-2020 v 20.3.30.3

Only selected land-connections run by regular public transport operators are shown. When more than one option is shown, the better option is underlined. See port and flight / ferry operator websites for more access options. Year-round ferry service across the Wadden Sea (seasonal services are not shown).
