"Zone": Single tariff point; a domestic ticket with a zone as the origin and/or destination gives the passenger unlimited train travel within the zone before they leave the zone (within the day of train operation), e.g. travelling purely within a zone requires only a single ticket with the zone as the origin and destination. (This no longer applies to international tickets.)
 EC, IC, S, L, P, and T services within Belgium have the same distance-based ticketing.
 Check carefully in a journey planner for the latest info. Usually Sunday schedule applies on holidays, but check with train service operators for possible special arrangements.
